

MT-SP-100 Right Angle Drive Skewdriver

Especially helpful for installing Markar HG-310 and HG-311 models.

www.markar.com

The unique gearing design of the Right Angle Drive Skewdriver provides conventional action on hard-to-reach fasteners while the adjustable stabilizer wing provides extra stability in high torque and restricted locations.

The MT-SP-100 Skewdriver is built to last with heavy-duty construction, die-cast housing and hardened steel gears.
